

## POLYURETHANE GOLF CLUB INSERTS

### ABSTRACT

5 An insert for a golf club, wherein the insert is formed of a polyurethane composition comprising a prepolymer comprised of a polyol and a polyisocyanate, and a curing agent; and wherein the polyisocyanate is selected from the group consisting of 4,4'-diphenylmethane diisocyanate, polymeric 4,4'-diphenylmethane diisocyanate, toluene diisocyanate, 3,3'-dimethyl-4,4'-biphenylene diisocyanate, *p*-phenylene diisocyanate, 4,4'-dicyclohexylmethane diisocyanate, and isophorone diisocyanate.
